

Horizon® - Delivering images fast with extraordinary savings

Satisfy Radiologists

- **Print Versatility-** Horizon incorporates film and paper into one incredibly compact and versatile medical imager. Horizon prints 14" x 17" and 8" x 10" film, plus low cost DirectVista® Grayscale Paper in 14" x 17" and A/A4 sizes for patient and referral copies, allowing you to choose the media size that fits your image, reducing cost and waste.

Lower Total Cost

- **Calculate Savings-** Horizon provides lower hardware, film and service costs than any competing dry imager. Horizon also has the industry's best warranty and first year service is included.
- **Low Cost Media-** Codonics DirectVista Paper is a high quality media ideal for referring physicians at a fraction of the cost of film available in 14" x 17" size, providing a cost-saving alternative to large format film. Additionally A/A4 letter size grayscale paper offers a **savings of up to 70% over film.**

Improve Workflow

- **Speed-** With the fastest time-to-first-print, Horizon prints up to 100 films an hour providing instant film output with no compromise in image quality.

Horizon®

Delivering Images Fast with Extraordinary Savings.

Horizon instantly delivers diagnostic film and cost-saving paper, allows you to load three types of media at the same time and holds up to 300 sheets of film. This unprecedented variety in printing options creates a new freedom of choice and allows users to match the output with the need, resulting in solutions capable of immediately reducing costs, minimizing waste and maximizing workflow. Horizon packs this all into a compact device, weighing less than 70 pounds and taking up less than two feet of counter space, eliminating costly siting requirements.

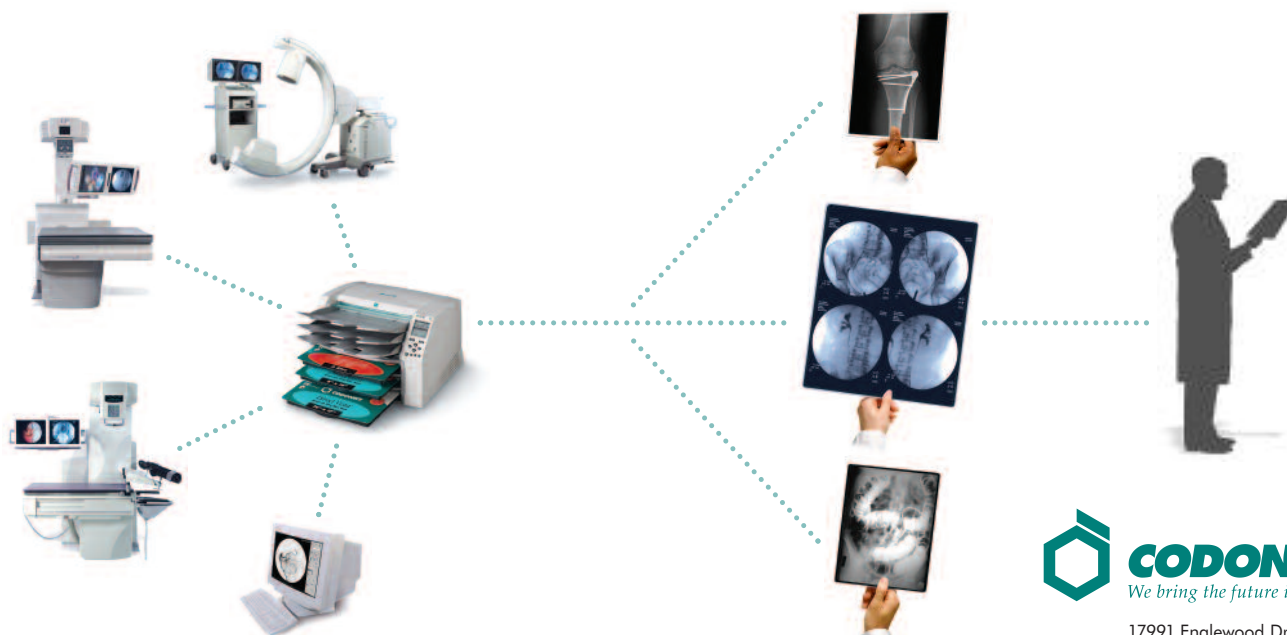

Radiology / Imaging Center

Referring Physicians

- Connect Directly to Modality
- Up to 24 Simultaneous DICOM Connections
- High Throughput
- Compact and Easy to Site
- Satisfy Demands from Referring Physicians
- Reduce Costs

- Clinical Review
- Patient Consults
- Patient Medical Files
- Surgical Planning
- Patient Marketing
- Ideal for Orthopaedic True-Size Images
